DOING RETIREMENT RIGHT

At the Texas County & District Retirement System (TCDRS), we help more than 360,000 Texans plan for their future. To do that, we partner with counties and districts to provide retirement, disability and survivor benefits.

TCDRS was created by the Texas Legislature in 1967. Since that time, we've grown into a financially strong, multi-billion dollar trust with nearly 850 participating employers.

Our employers advance fund their plans over the length of their employees' careers. That means their employees can count on their benefits when they are ready to retire.

We are one of the best-funded retirement plans in the nation. **We do not receive state funding.** Each plan is funded by investment earnings, the employer and its employees.

INVESTMENTS DRIVE OUR SUCCESS

For every benefit dollar TCDRS pays to its retirees, 74 cents comes from investment earnings.

A MODEL RETIREMENT PLAN

There are three unique features that make our plan a model for providing retirement benefits:

1) TCDRS IS A SAVINGS-BASED PLAN.

Members are saving for their own retirement over the length of their careers. Benefits are based on the final employee savings balance and employer matching. By contrast, benefits in traditional pension plans are based on a final average salary calculation and length of career, which can cause an unplanned increase in employer costs if employees receive a late-career promotion or earn excessive overtime.

2) BENEFITS ARE RESPONSIBLY FUNDED.

A key difference with TCDRS is that employers pay 100% of their required contributions every year. This ensures that the necessary funds will be there when the time comes to pay benefits.

3) EMPLOYERS HAVE FLEXIBILITY AND LOCAL CONTROL OVER BENEFITS.

Employers can adjust benefit levels to meet their workforce needs and budgets. This level of flexibility is not standard in most traditional retirement plans, which make it difficult or impossible for employers to lower costs when needed.

MEMBERS SAVE FOR A LIFETIME BENEFIT

- 1) A percentage of each employee's paycheck is deposited into a TCDRS account. That percentage (from 4% to 7%) is set by the employer.
- 2) The employee's savings earn interest at an annual compounded rate of 7%. This amount is set by legislation and does not fluctuate with market ups and downs.
- 3) Once an employee retires, they receive a benefit payment for life that is based on their final account balance and employer matching.

WE'RE HERE FOR THE LONG HAUL

TCDRS' net assets are \$42 billion as of Dec. 31, 2022. Our portfolio is constructed to achieve our long-term return goal within acceptable levels of risk. By meeting our goals, we help employers provide meaningful, secure benefits to their employees and retirees at reasonable, predictable costs.

TCDRS serves 253 Texas counties and 595 diverse districts – such as water districts, hospital districts, appraisal districts, emergency services districts and more.

By providing attractive retirement benefits, we help our employers competitively hire and retain talented staff.

TCDRS is not a one-size-fits-all system.

Each employer maintains its own customized plan of retirement benefits. Employers have the flexibility and local control to select benefits based on their workforce needs and budgets.

VALUE TO TEXAS

We provide retirement, disability and survivor benefits for more than 360,000 county and district members in Texas. They are nurses, mechanics, road crew workers, sheriffs, attorneys, office professionals, jailers and judges. They work in our ports and our parks, in urban areas and rural towns. But no matter their titles, locations or backgrounds, they all have one thing in common: their jobs make our communities better by providing valuable services, such as health care, utilities and public safety.

By and large, TCDRS retirees continue to live in their local communities after retirement. That means retirees are using their retirement benefits to enrich their hometowns, returning that value to their own communities.

In 2022, TCDRS paid \$2.1 billion in benefits to retirees and former members, and 96% of that money stayed in Texas.
